REX ROWLEY
AREA MANAGER
BLM/FILLMORE FIELD OFFICE
35 EAST 500 NORTH
FILLMORE, UT 84631

Dear Mr. Rowley,

I am responding to the letter I received from you, requesting that I make an Amendment Plan to include the access roads adjacent to my Dog Valley Limestone Quarry. It was my initial understanding that these roads were not my responsibility for reclamation.

Upon further research and discussion with Ron Teseneer from your Fillmore Office I am still puzzled as to my responsibility for reclamation of these roads. Mr. Teseneer informed me that these roads did not need to be included in the reclamation work to be done, as proposed in my original mine plan. The culverts that run on Highway 132 were installed by the Department of Transportation prior to opening my quarry, and therefore do not belong to BEG Resources.

I hope that you can understand my confusion on the matter. I propose that we set up a meeting between UDOGM, BLM, and myself to review this matter and hopefully come to a mutual understanding regarding BEG Resources responsibility for reclamation of access roads.

Sincerely,

A handwritten signature in cursive script, appearing to read "Neal R. Jensen".
